The Court finds the language struck from the Settlement Agreement is duplicative and does not alter the material provisions contained therein. The Court finds that the parties have properly settled their differences and have released one another from further liability in a fully executed Settlement Agreement. The Court accepts the Request for Dismissal and hereby Orders the Clerk to Dismiss this Case with prejudice. The OSC set for March 1, 2012 is hereby vacated.

DATED: February 29, 2012
